

OrangeHRM Launches Powerful Human Resource Tool with New Android Application

OrangeHRM puts the convenience of employee leave management into the hands of mobile device users with the launch of the OrangeHRM Android App.

SECAUCUS, NJ, June 23, 2014 **/24-7PressRelease/** -- In the Human Resource industry, having the ability to [manage employee schedules and leave requests](#) is vital to the success of every organization. OrangeHRM, the world's leading open source human resource management Software Company, has launched their brand new [OrangeHRM Android Mobile Application](#) to make this process even more seamless. Now human resource professionals and employees can access OrangeHRM products on-the-go, which puts them more in touch with time and attendance, leave requests, and information wherever and whenever they need it.

Sujee Saparamadu, CEO and Founder of OrangeHRM, says that the development of the new OrangeHRM Android Application came about as a result of the, "growing demand from OrangeHRM's clients to access and manage employee attendance on the go."

In today's world where HR professionals are under a great deal of pressure to keep up with daily demands, the OrangeHRM mobile app makes employee attendance and leave management possible with cloud based tools literally at one's fingertips.

OrangeHRM, offered as an open source human capital management product since 2006, has become the most popular HRM option for over a million users globally. Giving HR professionals a way to access critical employee data while keeping up with the demands of health care reform requirements was key in the decision to develop an Android Application. Recent research indicates the increased adoption of mobile devices by human resource leaders, therefore the OrangeHRM Android App meets the needs of the modern day HR Manager.

The OrangeHRM app can be downloaded from Google Play and set up in minutes. The app features an intuitive interface that provides HR administrators with up-to-the-minute employee attendance information at a glance. With personalized profiles of every employee, leave balance information tied to attendance records, and a simple request process - HR Administrators will find this new app easy to use when they must be away from their desks or when working with an increasingly remote workforce.

Employees will also be able to download the OrangeHRM product on their own Android based mobile devices, given them the ability to punch into or out of the OrangeHRM attendance system, request time off or check their [paid time off](#) (PTO) balances. They can also personalize their profiles, receive and review time off approvals, and update personal information from the OrangeHRM Android App. All of these aspects help to empower employees to take responsibility for their success on the job.

OrangeHRM is the world's most popular and used open source human resource management software, founded in 2005, and launched into beta in 2006. They serve millions of users who rely on accurate and reliable employee leave management and personal information reporting. To learn more about the OrangeHRM Android App, you are welcome to connect with the sales team at sales@orangehrm.com and you may review and download it from the Google Play website.
