 Location - Japan

 Employees - 5600

 Solutions - HR Administration, Performance Management, Career Development, Training, Recruitment, On/Off-Boarding, PTO / Leave Management

ABOUT THE SATO GROUP

The SATO Group comprises 54 companies that develop and produce hardware, software and consumables to integrate with third party offerings as automatic-identification solutions. These solutions streamline workflows by enabling the capture and visualization of data for a connected world of productivity, safety, reassurance and sustainability. By giving things a digital identity, SATO helps businesses run smoothly.

THE CHALLENGE

SATO Europe GmbH faced challenges with the responsiveness and complexity of its previous HR system. The lack of timely support and slow implementation process hindered productivity and efficiency. As a company needed a solution that was intuitive, easy to use, and could be implemented swiftly. Additionally, SATO Europe required a system capable of handling the intricacies of European regulations, including complex absence leave policies and multi-language support for factory employees spread across different regions.

THE SOLUTION

After evaluating several HR software options, SATO narrowed down its choices to OrangeHRM, and a number of other HR systems. The decisive factors in favor of OrangeHRM were its customizable nature, user-friendly interface, and comprehensive geographical coverage. Moreover, the seamless integration with the existing payroll system made OrangeHRM an appealing choice.

OrangeHRM's flexibility allowed SATO Europe to tailor the system to their specific needs, including customizing language settings for factory employees who spoke only their native languages. Despite initial challenges with translations, OrangeHRM's responsive support, exemplified by collaboration with implementation consultants, ensured timely resolution of issues, ultimately enhancing user experience and adoption across the organization.

Dedicated Support: OrangeHRM provided SATO Europe with personalized customer support, exemplified by the professionals, who guided them through the implementation process with expertise and professionalism. The responsiveness and knowledge exhibited by the OrangeHRM team instilled confidence in SATO Europe, fostering a collaborative and productive relationship.

Structured Guidance: OrangeHRM's structured approach, facilitated by comprehensive guidance and transparent communication, ensured that SATO Europe was well-prepared and informed at every stage of the implementation process. This proactive approach minimized confusion and maximized efficiency, allowing for seamless progress towards implementation goals.

Adaptable Implementation: OrangeHRM offered SATO Europe the flexibility to pace the implementation according to their preferences. Unlike previous experiences where timelines felt rigid and inflexible, OrangeHRM adapted to SATO's needs, accommodating weekly meetings and allowing for a smooth transition within a matter of weeks.

Effortless Data Transition: The transition from the previous HRM to OrangeHRM was streamlined and stress-free, thanks to OrangeHRM's step-by-step guidance on data migration. Unlike previous experiences marred by data migration challenges, OrangeHRM ensured a seamless transfer of data, minimizing disruptions and facilitating a smooth transition to the new system.

Empowering Guidance: OrangeHRM's implementation process unearthed hidden pain points for SATO Europe, enabling them to address and resolve issues effectively. Through insightful coaching and support, OrangeHRM empowered SATO Europe to optimize their HR processes further, saving time and effort in the long run.

Seamless Integration: With OrangeHRM, SATO Europe experienced a seamless transition without any disruptive changes. The familiarity and ease of use facilitated by OrangeHRM's implementation process ensured continuity and minimal disruption to daily operations, enabling SATO to transition smoothly to the new system.

THE RESULTS

Despite being in the early stages of implementation, SATO Europe expressed satisfaction with OrangeHRM's usability and customization capabilities, paving the way for enhanced HR management and employee satisfaction across the organization.

In conclusion, by partnering with OrangeHRM, SATO Europe successfully overcame the challenges posed by its previous HR system, and optimized its HR processes for enhanced efficiency and productivity. OrangeHRM's dedicated support, structured guidance, adaptable implementation, effortless data transition, empowering guidance, and seamless integration contributed to a successful implementation and a positive experience for SATO Europe.

Organizations can effortlessly carry out all HR operations using OrangeHRM's comprehensive and adaptable HR solution. Its secure web-based industry-leading human resource management software assists businesses in managing their talent and HR procedures globally.
